

Do not permit corporations such as Clear channel to own Television stations. As a member of AFTRA, we already see a decline in LIVE radio, sharing of newsrooms and the abuse of non-union employees in these shared facilities.

Since 1996, when radio ownership was changed, I have seen/heard a steady decline in the music played. After one hour, the playlist returns to the song I first heard when I tuned in. Changing the station doesn't help - it's the same list. I really don't wish to see Friends or Seinfeld or the Simpsons on every station I tune in to. The American public are not morons, but you should be ashamed of yourselves for abrogating your duty to the American Public who OWN the airwaves. You are simply the Trustees. to permit one or two corporations to own every station in a market is a violation of that trust.

Thank you
